\* Programmed for you by your security company.

## 2 | Turn on (arm) your system

You can turn your system on using different methods. Do one of the following:

Present your card or token to the proximity reader on the keypad:

Press the Ready to arm icon:

Press the icons to access the All On or Part On menu, and then follow the prompts:

Choose from on with a delay, on without a delay, or on by area.

With all methods, the security system begins to turn on with a delay, showing additional icons during the delay. To change how the system turns on, press the desired icon.

## 3 | Turn off (disarm) your system

You can turn your system off using different methods. Do one of the following:

Present your card or token to the proximity reader on the keypad:

Press the On icon or the Part On icon:

Press the icons to access the All On or Part On menu, and then follow the prompts:

## 4 | Edit users

You can use Edit Users to change passcodes and to add, remove, and replace cards and tokens.

### 4.1 | Change passcodes

You can change your own passcode and the passcodes of other users if you have the authority to do so.

To change your passcode, press the icons to access the Change Passcode menu, and then follow the prompts:

To change a user passcode, press the icons to access the Edit Users menu, and then follow the prompts:

Enter the number for the user you wish to edit, and press [ENTER]. Press [Continue], and then go to the Passcode menu and follow the prompts.

### 4.2 | Add a card or token for a user

Press the icons to access the Edit User menu, and then follow the prompts:

Enter the number for the user you wish to edit, and press [ENTER]. Then go to:

Card > Add > Add

### 4.3 | Replace a card or token for a user

Press the icons to access the Edit User menu, and then follow the prompts:

Enter the number for the user you wish to edit, and press [ENTER]. Then go to:

Card > Replace > Replace

### 4.4 | Remove a card or token

Press the icons to access the Edit User menu, and then follow the prompts:

Enter the number for the user you wish to edit, and press [ENTER]. Then go to:

Card > Remove

## 5 | Alarms

When the security system is in alarm, the Alarm icon shows.

Press the Alarm icon and then follow the prompts.

## 6 | Shortcuts

You can access your shortcuts using different methods. Do one of the following:

Press the icons to access the Shortcuts menu, and then press the desired shortcut:

Press the Shortcuts icon on the Ribbon bar, and then press the desired shortcut:

## 7 | Keypad cleaning

Use a soft cloth and non-abrasive cleaning solution to clean your keypad (for example, microfiber cloth and eyeglass cleaner). Spray the cleaner onto the cloth. Do not spray cleaners directly onto the keypad.
