

CSP-D00114 Orientation sheet for DCNM-FVP

DICENTIS

- ▶ Clearly noticeable dots-6 braille pattern to distinguish between the different voting buttons of the device
- ▶ Easy to stick to the flush voting panel

The orientation sheet makes the DCNM-FVP Flush voting panel accessible for visual impaired users due to the braille pattern dots-6 below touch areas. The orientation sheet has clearly noticeable braille cells to help distinguish between the different voting buttons. The foil can be easily stuck onto and removed from the DCNM-FVP as needed.
