

# DICENTIS Wireless Conference System

Maximum flexibility. Zero interference.

**BOSCH**  
Invented for life

Bosch introduces a **new wireless conference system** that makes conferences smoother, more enjoyable and more productive than ever before.

- ▶ **Standard Wi-Fi technology** for co-existence with other Wi-Fi networks.
- ▶ **Smart Wireless Management** to ensure interference-free wireless conferencing.
- ▶ **Touch-screen Wireless Devices with built-in NFC reader** for a superb meeting experience and future expandability.
- ▶ **True Wireless connectivity** for easy configuration and control, without the need for an additional router.
- ▶ **OMNEO ready** for future expansion with DCN multimedia systems.

**Maximum flexibility. Zero audio interference.**

The innovative DICENTIS Wireless Conference System uses state-of-the-art technologies, standard Wi-Fi and smart wireless management to ensure interference-free wireless conferencing. Designed to be the most flexible discussion system available, it enables quick and easy set-up and breakdown of small meetings and larger conferences.

**True Wireless connectivity**

True Wireless connectivity enables direct connection to the Wireless Access Point with any tablet or laptop and without the need for additional equipment, such as a router.

**Choice of devices**

The Wireless Device and Wireless Device Extended with capacitive touch-screen and built-in Near Field Communication (NFC) Reader enable a superb meeting experience. The functionality of the touch-screen devices can easily be enhanced through software modules.

**Future-proof**

Being OMNEO-ready, the DICENTIS Wireless Conference System can be expanded in the future with DCN multimedia systems and other OMNEO devices, resulting in a future-proof solution.

Stand-alone, simple to place Wireless Access Point (WAP). True Wireless connectivity and with built-in browser interface. Support for automatic HD Camera Control.

Timeless design in high-end finishing materials.

Smart battery management. Sleep-mode to save battery operating time.
