

DICENTIS Software Maintenance Agreement

- ▶ Enables best-possible system performance
- ▶ Convenient upgrade of software instead of expensive hardware
- ▶ Regular updates

With regular software updates, the DICENTIS Conference System grows with you, guaranteeing the best-possible functionality. This includes the licensed system and seat software, as well as third-party compatible updates.

If DICENTIS software modules are added at a later date, the SMA can be upgraded so that these modules are updated as well.

The SMA is free-of-charge for the first year after activating a DICENTIS System.

To maintain the DICENTIS system software, Software Maintenance Agreements (SMAs) are available for one, two or five years.
