

DCN-TCD Transport case for 10x DCN devices

www.boschsecurity.com

BOSCH
Invented for life

- ▶ Holds 10 (Wireless) Discussion Units with pluggable microphone and 10 pluggable microphones
- ▶ Equipment shaped foam interior simplifies packing
- ▶ Easy to pack, unpack and transport equipment
- ▶ Roller wheels for convenient transportation
- ▶ Cushion grip handles; trigger release latches

The Transport Case is used for storing and transporting DCN equipment. It has compartments for 10 (Wireless) Discussion Units, 10 (long or short stem) pluggable microphones, and a compartment for cables.

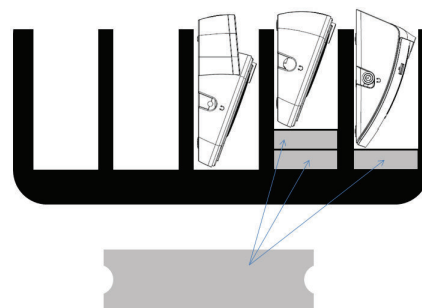

The Transport Case is manufactured from proven material to ensure for adequate protection of your DCN equipment during transportation and storage. The handles and latches are recessed and protected. The shaped foam interior ensures for smooth and fast packing and unpacking of equipment. The Transport Case has a retractable handle and wheels for convenient ground transportation and to prevent unnecessary lifting.

Functions

Capacity and specially shaped interior

The shaped foam interior is standard prepared to fit 10 DCN-Dxxx-xx Discussion Units with pluggable microphone and 10 pluggable microphones (DCN-MICx-x), but can also be modified to fit DCN-DISxxx-x or DCN-WDxxx-D Discussion Units with

pluggable microphone by easily changing the amount of foam pieces. It also includes a storage compartment for cables and other accessories.

Add or remove interior foam pieces

Easy to transport and store

The Transport Case is attractive but also extremely durable and practical. It has a retractable handle on top and a handle on the side. Also there are two

wheels underneath for easy and convenient transport. The Transport Case can be locked for optimum security during transport and storage.
