DL380 Gen10 AI Server
OSS Information

Bosch Security Systems uses Open Source Software (OSS) in the DL380 Gen 10 AI Server.
The OSS packages are either used completely or partly. To see the used OSS components and license texts, refer to the following:

▶ **DL380 Gen10 AI Server**: Please go to the download section on following web page:
https://www.boschsecurity.com/xc/en/oss/

▶ **Tracking and Recognition Service**: Please navigate to the following system directory on the DL380 Gen10 AI Server: **/usr/share/doc**

▶ **Ubuntu Base Image:** OSS licenses can be retrieved by copying them from the docker container to the host disk. At a command line, please execute the following: **docker cp trs_trs_1:/usr/share/doc**
