Functional description / Funktionsbeschreibung

9 ... 15 V DC

15 ... 30 V DC

6 |

en:

The end-of-line module enables the termination of conventional lines for creeping open monitoring.

de:

Das EOL-Modul ermöglicht die Überwachung von Gleichstromlinien auf schleichende Unterbrechungen.

fr:

Le module de fin de ligne permet la supervision des lignes conventionnelles pour détecter la présence de circuits ouverts.

it:

Il modulo EOL permette la terminazione delle linee convenzionali per il monitoraggio delle interruzioni di circuito lente.

nl:

Met de EOL-module is het mogelijk de conventionele lijn op onderbrekingen te bewaken.
