▶ Integration of Gallagher Command Centre with Bosch Video Management System (Bosch VMS)

▶ Receipt of Bosch VMS motion and diagnostic alarms in Gallagher command centre

▶ Complete alarms management of all integrated systems through Gallagher's security platform

GALLAGHER™

The integration of Gallagher Command Centre with Bosch Video Managament System (Bosch VMS) is a seamlessly working solution that leverages the core competencies of both systems. The Bosch VMS provides enterprise-level resilience within a uniquely decentralized architecture.

Gallagher Command Centre is a management tool for security systems, enabling system operators to configure, monitor and control the security system. Thanks to the integration, it is able to display video in response to an event, e.g. an intercom event. These events are recorded and can be replayed. Alarms generated by Gallagher Command Centre can also be used to move cameras to presets in Bosch VMS.

Compatibility

Gallagher	Bosch Security Systems
Gallagher Command Centre vEL7.50.507 or newer	Bosch Video Management System 5.5.5

Transport

Critical infrastructure

Government

Key features

Receipt of Bosch VMS alarms in Gallagher Command Centre
Gallagher Command Centre is able to receive motion and diagnostic alarms from Bosch VMS, providing a single audit trail for all alarms and allowing operators to monitor and manage security incidents on the ground.

Search and replay of stored video
Gallagher Command centre receives playback video from Bosch VMS, leveraging it's inherent resilience.
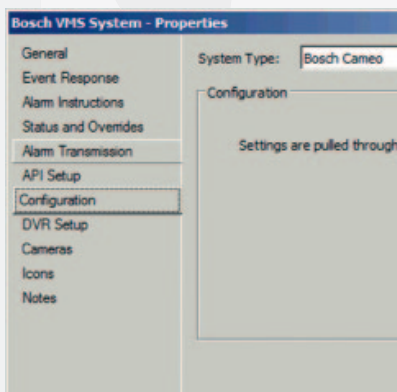

Preset on alarm
Bosch cameras can be preset based on alarms, allowing for effective responses to security.
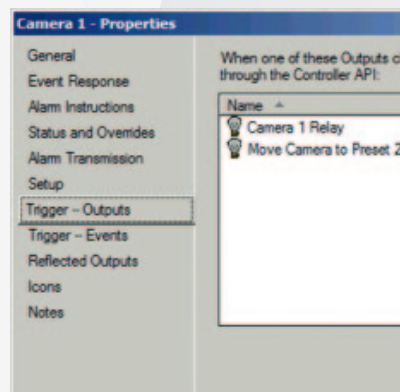

Live video support with full PTZ functions
Gallagher Command Centre works directly with Bosch VMS to view live video feeds and provide PTZ control for cameras.
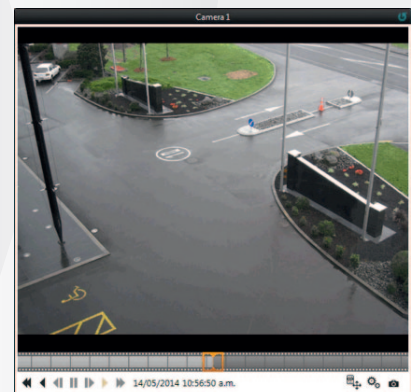

How it works

Setup
Gallagher Command Centre is integrated with Bosch VMS through a few simple configuration steps

Preset on alarm
Bosch cameras can be moved to presets based on triggers in Gallagher Command Centre

Video support
Live and recorded video from Bosch VMS can be viewed directly in Gallagher Command Centre

The Bosch division Security Systems is a leading global supplier of security, safety, and communications products, solutions and services. Protecting lives, buildings and assets is our aim. The product portfolio includes video surveillance, intrusion detection, fire detection and voice evacuation systems as well as access control and management systems. Professional audio and conference systems for communication of voice, sound and music complete the range. Bosch Security Systems develops and manufactures in its own plants across the world.
