Issue

The user is:

- Not able to connect to a G Series control panel using the Cloud ID on the label.
- Not able to identify a device on a network using the MAC address on the label.

Resolution

Using RPS

- In RPS, make a direct (USB or Network)
 connection to the panel and retrieve the Cloud
 ID or MAC address using Diagnostics.
- 2. Use that ID or MAC address to make the connection.

Using a keypad

- On a keypad, log into the panel as the installer and view your Cloud ID or MAC address from Diagnostics (Cloud or Network).
- Use that ID or MAC address to make the connection.
