Topic   **Installation of BIS from downloaded ZIP files**

Description   Steps to install BIS from ZIP files downloaded from the online product catalogue.

1. Download both the ZIP files marked "mandatory". Each contains a folder called **_Install**.
2. Download the ZIP file for the language that you wish to install. This also contains a folder called **_Install**.
3. Unpack all these **_Install** folders into the same **_Install** folder.
4. You should obtain a similar folder hierarchy to the one illustrated, whereby your language folder may vary (here **1033_en** i.e. English).

5. With administrator rights, execute **setup.exe** in the **_Install** folder.
6. Follow the instructions given by the installation program and the Quick Installation Guide.
7. **IMPORTANT patch for the restoral of backups.**
    1) <u>After</u> completing your BIS installation and <u>before</u> starting BIS: Download the ZIP archive: **BIS 4.8 Backup-Restore patch (all languages)**.
    2) In the ZIP archive, locate the appropriate language folder for your BIS installation, and extract the file `BackupRestore.exe` from it.
    3) Copy this file to the path: `<BIS installation drive>:\MgtS\AccessEngine\AC\Bin\` overwriting any files of the same name.
