Installation of BIS from downloaded ZIP files

Description Steps to install BIS from ZIP files downloaded from the online product catalogue.

1. Download both the ZIP files marked “mandatory”. Each contains a folder called **_Install**.
2. Download the ZIP file for the language that you wish to install. This also contains a folder called **_Install**.
3. Unpack all these **_Install** folders into the same **_Install** folder.
4. You should obtain a similar folder hierarchy to the one illustrated, whereby your language folder may vary (here **1033_en** i.e. English).

5. With administrator rights, execute **setup.exe** in the **_Install** folder.
6. Follow the instructions given by the installation program and the Quick Installation Guide.
